

FS KW 7300 RTU

FS KW 7300 RTU is another addition to the line of cleaning/ degreasing products developed by FS to meet the demand for greener technologies (renewable components, lower pH and toxicity profiles, readily biodegradable, and little to no VOC's).

Novel surfactants are combined to produce a product that is able to meet the demands of today's Environmental Health & Safety Departments, while also exceeding the performance characteristics outlined by the Engineering and Maintenance departments.

FS KW 7300 RTU is formulated for immediate use (further dilution with water is not needed). As is, **FS KW 7300 RTU** will effectively clean machine and equipment exteriors, spot clean floors, or for use in any other application which necessitates the use of an effective, ready to use product. The product really works well in spray and clean applications.

TYPICAL PHYSICAL PROPERTIES

Fluid Type:	Cleaner/ Degreaser
Specific Gravity:	1.01
Ph: 5% Solution (20:1):	6.5
Color/ Odor:	Clear/ Pleasant Smell
Flash Point:	N/A

APPLICATIONS

*Spray/ Wipe/ Clean

*Spot Cleaning

Note: Product is RTU- Ready to Use. Further dilution with water is not recommended or needed.

STORAGE/ MIXING: Cleaners should be stored at room temperatures (between 55-90 deg. F). Should concentrates be exposed to temperatures out of this range, the concentrate needs to be mixed well prior to use. Product may become unstable/split, if exposed to extreme temperatures. Always add concentrate to water while mixing, or run concentrates through a proportioning unit.

HEALTH AND SAFETY: Refer to Safety Data Sheet for more information.

Warranty: Because conditions of use are beyond our control no representation or warranty is made in connection with the use of this product. Technical information and recommendations are believed to be accurate but are not guaranteed.
