

DIESELEX GOLD ADVANTAGE

- ➔ Protection for the entire fuel system
- ➔ Cleans up deposits left by typical ULSD
- ➔ Keeps engines clean
- ➔ Quicker starts/less cold cranking
- ➔ Improved combustion
- ➔ Quieter/smooth operation
- ➔ Optimized fuel economy
- ➔ Optimum power
- ➔ Reduction in emissions
- ➔ Less unexpected downtime
- ➔ Improved overall performance

DIESEL FUEL
TO POWER
& PROTECT**

Dieselex[®] Gold
Power ♦ Efficiency ♦ Protection

MORE POWER

RESTORES AND INCREASES HORSEPOWER

MORE EFFICIENCY

KEEPS ENGINES RUNNING LIKE NEW

MORE PROTECTION

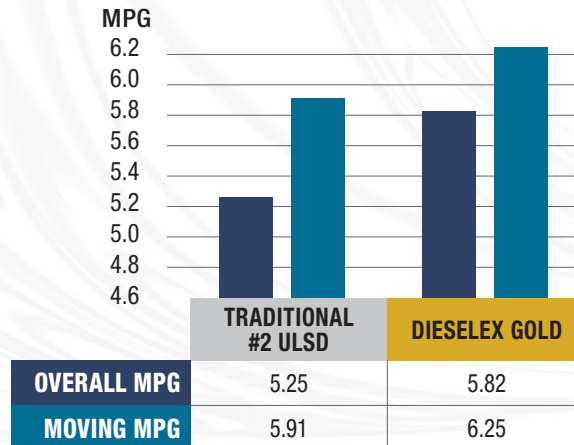

PROVIDES TOTAL FUEL SYSTEM PROTECTION

Loss of power is a common occurrence with traditional #2 Ultra Low Sulfur Diesel (ULSD) in today's modern engines. Dieselelex Gold recovers power loss from traditional #2 ULSD.

- Resists breakdown under engine stress
- Reduces and removes carbon deposits
- Improves fuel delivery and combustion
- Recovers and restores lost horsepower

Dieselelex Gold is formulated to reduce downtime and increase operability and efficiency.

Our focus on protection begins with your fuel storage tanks and ends with your emissions. This focus is what we call **Total Fuel System Protection**.

- Guards against thermal and oxidative fuel breakdown
- Keeps storage and equipment tanks dryer
- Protects moving parts from wear and damage
- Cleans and disperses particles to reduce emissions
